

SPARTAN NEWS and UPDATES **November 21, 2012**

It's been a year since our last SPARTAN event. We hope the planning and training we did last year has provided valuable insight into having the knowledge and skills if it became necessary to activate your school emergency plan.

What's New

We have updated the SPARTAN website. **[Click here to find out about the latest training we have planned.](#)**

SPARTAN Newsletter

We've put together a brief newsletter that lets participants of the SPARTAN project know what is going on. **[Click here to download a copy.](#)**

SPARTAN School Plans

During the past couple of years, as the schools were developing their individual emergency plans, the plans could be accessed through Risk Solutions International LLC (RSI) Plans Portal. Within the next few weeks, the school plans will be transferred from RSI to the Nevada Division of Emergency Management and placed on their secure hosting servers. Please watch for more information on this as new user information may be required. We will keep you updated as this transition progresses

Homeland Security Exercise and Evaluation Planning (HSEEP) Training Scheduled for November 28-30 in Reno

We are conducting a HSEEP course in Reno at the Washoe County Emergency Operations Center. Interested parties can register. However, first priority are the organizations planning to participate in the Earthquake exercise series hosted by the Washoe County School District. Others are welcome and will be accepted as exercise observers.

If you are interested in attending the HSEEP training, [please click here to register.](#)

We look forward to seeing you at a future SPARTAN event. Thank you for your continued support and interest in the project. If you have any questions, please contact Duane Lohn, SPARTAN Project Manager.
